(MATHA SKILL DEVELOPMENT CENTRE)

### ANNUAL REPORT FOR 2015-2016.

Matha Educational Trust was started to empower the illiterate, develop the undeveloped and economically backward people to improve their social status through skill training. This was registered as a trust in the year 2001 and this was the first step to serve the community. Matha's vision is to eradicate the unemployment and under employment, through creating a new entrepreneur. We

develop the skills by stimulating their minds; identify their ability to train them and when our actions align with our passion and purpose, wonderful things to begin to happen. We teach them the moral, to implement in the day-to-day life for their betterment. We care for the people with a random act of kindness without any expectation of reward, and train them to shine as a successful entrepreneur. Now we have successfully completed 15 years of dedicated service for poor and needy and we step into the sweet sixteen.

Children and aged people struggled a lot. This incident was pricking our heart, and we, the Matha Team wanted to do some flood relief service. so we communicated all our friends through what's app, face book and a few other social media. We got a great response through that. A huge group of people were willing to help and they contacted us. They sponsored clothes , bed sheets , medicines, glucose, mosquito proof, biscuits, bread , mineral water bottles, grocery, rice etc.

One of the VIT youth volunteers team sponsored a lot of things. We provided those things to the most affected areas. The condition of those people was so pathetic. They were running here and there for food, water and clothing. The rain Gods showed no mercy on them. The level of the water rose steadily from time to time. Our lives were at stake when we travelled to Chennai. We were about to get drowned in the floods. But by god's grace, we were saved and we came back safely.
